

Phi Kappa Theta

Website Abstract

www.phikaps.org

Phi Kappa Theta launched this new Website at the end of 2008 to better connect with collegiate and alumni members. We have implemented a dynamic News & Events section, where we post items from our members and staff. Members and friends can receive information via RSS feed. We reformatted the flow of information to make the site more user-friendly and searchable. In addition, members and boards can download important resources from an easy-to-use resource bank. We are getting great feedback from this redesigned and freshly conceptualized site.
